

## THE HARDWOOD CENTER: DELIVERY SCHEDULES & ROUTES

Since we are locally owned and our production is local, we are able to provide added service through our local distribution in the state of Tennessee and the bordering areas in surrounding states. We are proud to be able to help our customers boast about how they are able to keep their business in their own community. We run regular routes throughout our distribution territory as can be seen on our route schedule. If we have your order before 2:00 the day before your delivery schedule we will have the material to you on your day. We want you to know that you have a consistent supply and offer a set schedule so that you can easier plan your deliveries. All of our trucks have tracking devices so we can be more accurate on letting you know when your materials will arrive. We also are able to offer jobsite deliveries for material being delivered in a close proximity to our location.

**Monday**

**Southern Tennessee – Middle & East; North Alabama;  
Greater Nashville – Nashville and surrounding counties.**

**Tuesday**

**East Tennessee (I-40 corridor east of Cookeville to Sevierville)
